

SUSE is a leading provider of enterprise Linux solutions that increase agility, reduce cost and manage complexity. With a portfolio centered around SUSE Linux Enterprise, the most interoperable platform for mission-critical computing, SUSE enables organizations to confidently deliver applications across environments - physical, virtual and cloud.

For 20 years, HP and SUSE have worked together to meet the needs of the most demanding customers. HP and SUSE have a shared focus on Linux for heterogeneous solutions and in mission-critical environments, driving innovations in interoperability and scalability of SUSE Linux Enterprise Server with HP hardware.
